

GG PRINT LONDON

*Bespoke Wedding
Stationery*

Your wedding stationery is an important part of your big day and the GG Print team are at hand to help and advise. We offer beautiful bespoke, hand-finished stationery that we can adapt to your design and budget needs, and we will work with you to set the tone for your special day.

Types of stationery that you might need:

- **Save the Date Cards**
- **Engagement Invitations**
- **Wedding Invitations (including reply cards, information sheets, gift lists and reception invitations)**
- **Order of Service**
- **Menus**
- **Placement and Escort Cards**
- **Table Plans**
- **Thank You Cards**

The first question we are often asked by our clients is: “*when should we send out our invites?*” The general rule is **two months before** the wedding. Though if you have relatives or friends coming from abroad, or if the wedding itself is, one might send them out a little earlier than that or send save the date cards.

We can easily accommodate to any concepts, designs or themes you have in mind for the wedding and adapt them to your stationery. Common themes have included flowers, motifs or specific colour schemes.

With regards to lead-times, it is usually working out the initial design and the artwork that takes time – so allow a couple of weeks for quotes and artwork to be finalised, and then about **seven to ten working days for the actual printing**.

On the opposite page, you will find a guideline for the wording and layout of a traditional wedding invitation. If you are unsure of wording on invitations, particularly in special circumstances, please do not hesitate to ask us for advice.

NB the following Hebrew phrase is very popular blind embossed at the top of a traditional Jewish wedding invitation:

ב"ה

קול ששון וקול שמחה קול חתן וקול כלה

The initials in the right hand corner translates as: "Praise be to God" and the line underneath: "May the sound of happiness and of rejoicing (be heard in the towns of Judah and in the streets of Jerusalem) the voice of the groom and the voice of the bride."

We offer all forms of printing and can advise you on the most suitable technique for your needs. These include:

- **Digital** (*a cost effective option, though slight colour variation may occur*)
- **Lithography** (*a step up from digital printing - a technique where a metal plate of the design is produced and rolled across the paper/ card to produce a fine end product*)
- **Thermography** (*this gives the text on paper/ card a raised feel - it uses a more modern technique to engraving but produces an equally impressive effect*)
- **Dye-Stamping/Engraving** (*the traditional method - a dye is produced and pressed onto the paper to achieve a raised effect for the text - the ink is matt in comparison to the shinier effect of the thermo ink and the reverse side of the paper/ card is indented as well*)
- **Foil Blocking** - (*a technique where a stamp is produced and pressed into the paper/ card to create an indented text - a variety of coloured foils can be used*)
- **Blind Embossing** (*a technique where a stamp is produced and pressed onto the paper to achieve a raised effect without die*)

Extras include gilt edging, plate marking and ribboning.

Guide Pricelist

Please use the below as a guideline for standard prices and products. Different variables (such as printing technique, ink colour, size and weight of card) can alter the price and we are happy to provide you with your own bespoke quote. We quote in multiples of 100 as the quantities in between are a minimal price difference.

NB the below quotes are for black ink but we do offer a variety of ink colours
